## QUESTIONS TEENS ASK

### QUESTIONS TEENS ASK

*(you have permission to reproduce this document).*

Since 2014 I have been teaching on this subject of LGBT to the Churches. Over time, have collated the questions that the youth from ages 10-27 have asked me along with the answers I have given. I have decided to share some of the discussions so that you may have a resource. This book is intended for students of Reason and Faith Apologetics Classes and the general public. This may serve as a resource for Christian teachers, youth groups, ISCFs, schools, youth in your home, youth on the street and anywhere the youth may gather. Our youth are desperately ignorant to the issues surrounding the LGBT and the Church

REASON & FAITH APOLOGETICS: vincent Smith

## QUESTIONS TEENS ASK

has failed to provide the much-needed answers. Our youth seek answers to questions and usually have them fulfilled via Youtube and other media platforms without filter. Please share this document.

As in my usual fashion I avoid the fluff and gets to the bare bones of the answer making this an easy to read and understand resource. No medical, scientific or theological jargon just plain English.

# QUESTIONS TEENS ASK

## CHAPTER 1

### **QUESTIONS** teens ask about language.

#### What is a homophobe?

A supposed combination of Greek words made up by the LGBT which when transliterated means **fear of same**. When explained by them it means, “a person with a dislike of or prejudice against homosexuals”. To the non-LGBT it means someone who **refuses to believe the lie**.

#### What is Sexuality?

This is where you choose to be attracted to a particular sex.

## QUESTIONS TEENS ASK

### What is homosexuality?

Choosing to be attracted to the same sex. Note that this decision is against God's design.

### What is heterosexuality?

Eve was created to cater to man's sexual needs. Man fulfilled Eve's sexual needs. The intercourse between man and woman was specially designed not just for sexual fulfilment but for reproduction. This is God designed. Yes, a person can choose not to be heterosexual because of freewill but that decision is against God's design and against their biology which is also God designed.

## QUESTIONS TEENS ASK

### What is politically correct speech?

Rules designed by the LGBT and put into law to suppress and punish by law all who exercise their right to refuse to accept LGBT ideologies from ever disagreeing verbally or in writing.

# QUESTIONS TEENS ASK

## CHAPTER 2

### **QUESTIONS teens ask about the disorders.**

#### **What is gender dysphoria/disorder?**

Gender dysphoria involves a conflict between a person's physical or assigned gender and the gender with which he/she/they identify. People with gender dysphoria may be very uncomfortable with the gender they were assigned, sometimes described as being uncomfortable with their body (particularly developments during puberty) or being uncomfortable with the expected roles of their assigned gender.

Its also a consistent and persistent belief in the lie or pretense that you are of a different

## QUESTIONS TEENS ASK

sex. People who suffer from a false belief or delusion that they are born in the wrong body. There are a number of dysphorias such as believing I am a tree, a dog, cat, helicopter, people who can see say they are blind, people with two good arms want to remove them because they believe or want to be disabled etc. None of these are taken seriously by the LGBT but very seriously in the other dysphoria communities.

They are told by their peers and the LGBT supportive Psychiatrists that the body image challenges they are having means they are a different gender, i.e. born in the wrong body and therefore they need to cut off body off parts to fix the issue.

When taken to a proper Psychiatrist many of these youth have been found to have **body image disorders**. Usually, affirmation of your natural body builds their self-esteem of the individual and cures them of this issue.

REASON & FAITH APOLOGETICS: vincent Smith

## QUESTIONS TEENS ASK

No need to confuse them further with LGBT mumbo Jumbo.

### **Gender Identity Disorder (DSM- IV)**

The disturbance is not concurrent with a physical intersex condition.

The disturbance causes clinically significant distress or impairment in social, occupational, or other important areas of functioning.

A strong and persistent cross-gender identification (not merely a desire for any cultural advantages of being the other sex)

Persistent discomfort with his or her sex or sense of inappropriateness in the gender role of that sex.

## QUESTIONS TEENS ASK

Are all of the other trans groups the same as trans gender dysphoria?

What is Trans-age?

A perfect example was on the news where a 56-year-old man said he feels like a little 6-year-old girl. He dresses and play acts like a 6 year old. He is trying to get into nursery school. He is also adopted by a husband and wife.

What is Trans-animal?

Some people say they were born an animal or feel like a dog or a cat or a tree or have no body. This can only be experienced in the mind not in physical reality.

## QUESTIONS TEENS ASK

### What is Trans able?

This is when you cut off your arm, leg or blind yourself in order to become disabled. Advantages maybe to compete in the world Paralympic games, money, fame, glory etc.

### Trans ethnicity.

Here are white people who claimed to be black. NAACP President **Rachel Dolezal**; **Satchuel Cole**, an Indianapolis racial justice activist and writer/ activist **Shaun King**.

### Trans human:

This is the combining of human with technology such as A.I.

REASON & FAITH APOLOGETICS: vincent Smith

## QUESTIONS TEENS ASK

### What is Gender?

The English formation from the original French word Genre' (the letter "d" was added) which has always meant type. There are two types (Genre or Gender) of sexes male and female. There are no more Genders or types. However, there are people who are delusional and believe the lie that they are another gender other than the two biological and God designed male and female genders. For example, (see tumbler) they have imagined they are Aesthetgender– A gender derived from an aesthetic. Aethergender A gender that feels very wide, commanding, breathtaking and powerful. Affectugender– A gender affected by mood swings. Amicagender– A gender that changes depending on which friend you're with at the moment. All of these occur in the mind of the individual. They are not

REASON & FAITH APOLOGETICS: vincent Smith

## QUESTIONS TEENS ASK

objectively observable by others in the real world. Nothing changes to the person's body biologically despite their claim. There are more and some are abstract and non-human genders. Since according to the LGBT, Genders are made up in this case they are fantasy and not real, the claims should not be taken seriously but the individual should seek Psychological evaluation if this persists.

### What is Trans-gender?

Persons believe they can change their sex despite any of the two types/genders of sexes cannot be changed this does not stop persons from trying. Some LGBT say they are Affectugender on Monday and Amicagender on Tuesday or they feel like they are both. There is no limit to the imagination.

## QUESTIONS TEENS ASK

### What is Trans-sexual?

Surgery is used to saw off a person's penis and castrate their testicles, stitch up vaginas, and cut off breast. This is not a sex change this is butchery. Because a surgeon or anyone cuts a hole into their body that does not make it a vagina or put plastic /silicon under the skin does not make it breasts. They cannot feed babies or give birth. This is a blatant insult to all women.

### Why not call trans woman a woman.

He is still a man so that would be absurd. He is performing as a woman. He will not be a woman. Do not encourage him in a lie and a belief. Transwoman is nonsense term. A man said his sexual attraction for a man is proof he is a woman. No, he is still a man attracted to another man.

REASON & FAITH APOLOGETICS: vincent Smith

## QUESTIONS TEENS ASK

### What is cis-gender or cis-woman?

There is no such thing. Woman or man don't need a prefix nor to change their language. Since the trans-woman came along women are the ones who have to change now to adjust for these men in women's make up.

### What is sexual Identity Disorder:

It's a term used to describe a condition that results in a person being confused about their natural sex.

### What is a Tom boy?

If your sister played with a boy doll or likes football instead of ballet, she is **not a Tom Boy** and neither is she gay, trans-gender, has Dysphoria nor has sexual identity disorder.

REASON & FAITH APOLOGETICS: vincent Smith

## QUESTIONS TEENS ASK

You simply affirm to your sister her biological sex. She simply prefers and chooses a sport that is not traditionally forced or expected of girls. Stop referring to girls as Tom boys.

However, if your parents take her to a “LGBT empathetic doctor”, the doctor will claim she is gender dysphoric because hse likes sports that traditionally boys play. They recommend she goes on puberty blockers \$6,000 for two years then hormone therapy \$10,000 for two years then has surgery \$100,000 to become a boy. All the while their pockets are fattening.

### What is Puberty?

It tells us we are a boy or girl. When we see the breasts, voice change, muscular development, shapeliness, tough skin in boys and soft skin in girls. Puberty confirms what our genes have programmed, what the

REASON & FAITH APOLOGETICS: vincent Smith

## QUESTIONS TEENS ASK

doctor, mum & dad & others observed. Puberty is natural we all go through it except LGBT children.

### What are Puberty blockers?

They are **dangerously powerful drugs** taken by LGBT persons to prevent natural Puberty so that the child will not know what sex they were going to be naturally.

**Puberty is not a disease** that must be stopped. The blockers cause sterility and other medical problems.

### What is a male period?

Homosexual men bleed from their anus and they use a female tampon to block the hemorrhaging. This not a natural occurrence such as the female's. This is not a period, **this is a wound** that needs medical repair. The result of a perverse and abusive use of

REASON & FAITH APOLOGETICS: vincent Smith

## QUESTIONS TEENS ASK

the anus causing damage to its health through tearing and widening. This is not biological, natural and males are not born this way. Some teens have serious infections from using the female tampon for what it was not designed for.

**What about anal intercourse:**

**God did not design the anus for the same rigorous treatment as the vagina.** Of

course not, the males suffer from incontinence as a result.

God designed men and women to sexually fit each other. This fit did not accidentally evolve. God designed the woman with a special chamber/womb to receive and incubate the seed from the man.

## QUESTIONS TEENS ASK

### What is Hormone “treatment”?

Drugs recommended by the LGBT doctors and given to children after puberty blockers so they will develop external features of the opposite sex. **These hormones are cancer causing and therefore life threatening** and should not be taken. These hormones are not a treatment. They are given by irresponsible men and women who call themselves doctors who abuse youngsters.

## QUESTIONS TEENS ASK

### CHAPTER 3

#### **QUESTIONS teens ask about surgery.**

#### **What is sex replacement surgery?**

Many seek surgery to change their gender but **surgery can only cut what is physical and real but not what is imagined.** You can't surgically change an Aesthetgender—A gender derived from an aesthetic. Only mental surgery can be performed with prescribed drugs and counselling.

#### **But many are suicidal and surgery fixes it.**

Fake news. **This is the biggest medical scam** pushed my Dr. Money in the 50s. He made tons of money by deluding the trans community. **Even after surgery the suicidal rate does not drop, in fact it has**  
REASON & FAITH APOLOGETICS: vincent Smith

## QUESTIONS TEENS ASK

**risen.** Proof surgery does not solve the problem.

Does having surgery make me a different category of person?

No. you are not a new type of human. You are still a man or woman (human). Having surgery cannot change who you are.

Unfortunately, after surgery many wake up, realizing that the surgery is nothing more than cosmetics. Make up and fake body parts are not the real thing. In fact, they have to pretend even harder that the fake parts are real and the pretending still goes on.

**Everyday they stare in the mirror deluding themselves that fake parts are real.** They either go deeper into the delusion or wake up. This is a sobering wake-up call for many who are now de-transitioning. It is very heart breaking.

## QUESTIONS TEENS ASK

Sex reversal surgery?

### DE-TRANSITIONING

Many have had sex surgery and after sometime decided to revert back (de-transition) to be the sex they were born as. But **the surgery cannot be reversed**. 1000s are now stuck with the changes they no longer want. However, many after realizing they were abused by doctors, pushed by their parents or they only did it because others were doing it, it was popular, transgenders came into their schools and convinced them, they wanted attention, they had body image challenges.

## QUESTIONS TEENS ASK

**De-Transitioning.** After making such great efforts they can't be wrong.

Going through surgery, suffering shame from others, believing one is another sex, taking drugs, dressing like the other sex, performing or acting like a man/woman, and speaking at forums is used as proof this is real and people are born in wrong bodies. No! IT DOES NOT. It still does not prove that a person was born in the wrong body or that they have changed sex.

**Is De-Transitioning a mental disorder.**

NO! but according to the definition of the dysphoric it should one and since the Dysphoric has insurance for psychiatric bills, surgery, hormones drugs etc, why is the De-Transitioned given the same attention and advocacy.

REASON & FAITH APOLOGETICS: vincent Smith

# QUESTIONS TEENS ASK

## CHAPTER 4

### **QUESTIONS youth ask about Biology**

#### **Biology vs Choice:**

1000s have chosen to be homosexual/ trans and have later changed their mind back towards their natural state. It is a decision; it is a choice. You are not born this way or fixed and cannot change. It's not the same thing as skin colour or genetics.

#### **What about Chromosomes?**

**You can change your external organs but you can't change your chromosomes.**

Even if you have surgery your male body is

## QUESTIONS TEENS ASK

still producing male sperm, male testosterone, and all other male peculiarities.

Is there such a thing as a female /male brain?

No! they are just brains neither are there male & female brains. The typical brain in females are smaller than the average brain in males. It does not mean that men with brains that are smaller than some other males have women brains.

Does the brain determine if you are female no, the mind confirms what the genes did.

How can the brain of a man know what a female body feels like if it is not attached to one? **This is absurd pseudoscience.**

Was I born homosexual (gay)?

## QUESTIONS TEENS ASK

No, there is no scientific tests or evidence that proves a homosexual gene. It is not a fact and should not be believed as true.

### Are we born “Its”:

Parents are being told in Sweden and other places that their children are its and should not be labelled as boy or girl at birth. There is no sex on their birth certificates. At 3-4 years old the children are to decide what they are. 4-year-old cannot make life altering or life-long decisions.

### Can a man feel like a woman?

It is impossible for a man to know what it is like to have a menstrual cycle, period pain, pregnancy, birth/delivery, breast feed and so on. This statement is an insult to all women.

## QUESTIONS TEENS ASK

Can a woman who gives birth be called father? She is not the father but the mother of the child.

### Are there only two Sexes?

Yes, male and female? This is determined by our biology or genes and not choice.

### What is a Hermaphrodite?

A person who has two organs. This is rare genetic disorder and **not a third sex neither is it homosexuality or transsexuality.** The individual will choose the sex they prefer. However, in most cases only one organ works which tells them what sex they are.

# QUESTIONS TEENS ASK

## CHAPTER 5

### **QUESTIONS youth ask about Sports & school.**

Should the LGBT teach us homosexuality in schools:

LGBT forces nurseries and primary schools to teach infants how to have sex and how boys are to put on condoms on boys and perform anal intercourse. Fourteen schools in England in support of LGBT have banned boys from wearing male uniforms and banned girls from girl uniforms because the uniforms identify them as male or female.

How is LGBT changing Sports?

## QUESTIONS TEENS ASK

(girls vs trans) In female sports today LGBT male athletes that claim they are transitioning to be girls are entering female sports, dominating the weaker females and taking home all the gold medals. Girls can no longer win in girl sports. The future of women's sport is coming to an end because of the LGBT.

### Should trans take part in female sports?

No, they are still men and have an unfair advantage. Women's sports will be taken over by men.

### Can boys enter girl's bathrooms?

No, they should not invade the female's privacy. However, in the girls' sports team - the LGBT are forcing males who claim they are transitioning are entitled to shower with

## QUESTIONS TEENS ASK

the girls and sleep in the girl's rooms when on tour.

Should I support my sister who believe she is in the wrong body.

No! you must help your sister, brother or friend before they go deeper into the lie and delusion and becomes trapped. Be absolutely honest with them. Tell the truth. You may save a life. Some who have De-Transitioned said they wish they wish someone had stopped them before it was too late.

Conversion therapy

This works for some people and not for others who changed their sex and later want to give up that lifestyle choice and resume a

## QUESTIONS TEENS ASK

lifestyle in accordance with their natural sex they were at birth.

### What about Condoms?

Condoms are not recommended by the FDA for homosexual use because they are just over 60% effective at stopping HIV etc. This population still has an increase of HIV even with condom use. **No, condoms are not recommended for anal sex.**

### How are we Designed?

God made the woman for the man and one reason is sexual reproduction. Homosexuals cannot produce children and a homosexual utopia leads to the end of the population.

# QUESTIONS TEENS ASK

## CHAPTER 6

### What youth say about transgenderism.

I trust “**QUESTIONS youth ask**” was informative and helpful. Here is an extra I added for you. This one is called what youth say.

Transgenderism is confusing our children. I have spoken to several groups of youth in Barbados about transgenderism. In the 9-11 years old group almost all of them (about 90%) said **a man can become a woman.** The 12-25 age group, about 30% were of the same opinion. They gave the same reason, that transgenders, homosexuals and American politicians say this on the internet / YouTube. So, I questioned them, is

## QUESTIONS TEENS ASK

everything we see on YouTube true? They said no.

They told me that **men can become pregnant because, again they saw it on YouTube.** I asked, if males have a uterus. Every single person concluded no, they don't and therefore men can't have children. They confessed they were not aware the women took male hormones to grow a beard so they would appear as if they were pregnant men. They **admitted they were fooled.**

They informed me also **that a girl can have surgery to become a boy.** Speaking to a youth group who said the same thing, I asked if cutting off my male parts will make me become a female or would I be just a male without parts. Consequently, they all conceded that surgery cannot change your gender or sex. The children understood that

REASON & FAITH APOLOGETICS: vincent Smith

## QUESTIONS TEENS ASK

with reason and a rational approach they won't be so easily fooled again.

I questioned where this so-called change was taking place and they said it had to be in the mind of the so-called transgender. I asked if the surgeon's knife can cut the mind. They admitted no but a psychologist might.

Such transgender ideas strongly suggests to our children that any objective fact about who you are is worthless compared to people's subjective experiences and people's subjectivity which must trump objectivity. This encourages our children to completely lose the ability to rigorously evaluate any concept, knowledge and analytical position, because it's all based on your feelings.

However, some argued that the transgender idea that a man can feel like a woman is

REASON & FAITH APOLOGETICS: vincent Smith

## QUESTIONS TEENS ASK

true. One even said she knew **a boy in Barbados who said, “he felt that he is a girl”**. I asked does a man or a little boy know what a menstrual cycle or what female private parts are like, what lactation is like or have experienced gestation and childbirth. They again agreed it’s not possible for a man to feel like a woman. One corrected us and said they do not feel they are women; they think they are that way. We conducted a thought experiment. After closing our eyes really tightly and thinking really hard for 1 minute to see if we can think our gender into existence, a band of crickets played. I chased the crickets and reminded the youth that people do take their thoughts very seriously.

Furthermore, how can they (“transgenders”) who are born a clean slate who are neither male nor female but only an “it”, later identify as a non-existent female or male. To

REASON & FAITH APOLOGETICS: vincent Smith

## QUESTIONS TEENS ASK

identify as a male and female suggests that you believe there is such a thing and that they are real and actually exist.

Those who believe that male and female are socially constructed run into the problem of identifying as a social construction (an idea).

How many Barbadian parents are aware of what their children are doing on the internet and the ideas that are shaping them? Parents please save our children and save their future. It's time to have a chat with them about such social issues.
